American Water Polo promotes good sportsmanship by all fans and participants, and expects that everyone involved will respond in a positive manner. Profanity and all intimidating actions and/or words directed at individuals during the event will not be tolerated and are grounds for immediate removal from the pool and the host facility. Consumption or possession of alcoholic beverages and use of tobacco products is prohibited at the sites.

What are the NSC Rules?

National Collegiate Athletic Association (NCAA) playing rules are always used unless otherwise noted.

- *An athlete can only play for ONE team in the tournament.*
- *7:00 minute quarters; 30 second shot clock*
- *One full timeout per half (two minutes in length) - 10's do **not carry over***
- *Two minute break between quarters and half*
- *No overtime during round robin play, but overtime **will be played** to decide championship (OT rules: first team to score is the winner)*

Tie Breaker System – All Situations

If two teams are tied using the tie breaker system below and they have played each other, the head-to-head competition is used to determine ranking. Note, in the event that a team forfeited a game, that team is eliminated from tie-breaker consideration and is seeded at the lowest position among the tied teams.

Tie Breaker System – Two Teams

If the won/loss records of two teams are the same, the team that won in their head-to-head competition is the higher seed. If these teams each beat one another, the goal differential in their games is used to break the tie. If the goal differential in their contests against one another is the same, the total of goals scored against each other is used. If the total of goals scored between the teams is equal, the differential for all common opponents seeded higher is used. If no common opponents are seeded higher, the goal differential against the highest seeded common opponent is used.

Tie Breaker System – Three or More Teams (for seeding championships)

If more than two teams are tied in won/loss records, goal differentials among the teams tied serves as the tiebreaker to determine the best team within the group until only two teams remain. The final two teams use their head-to-head results to break the tie. If the top two teams based on goal differentials are tied, the tie is broken with the results of their head-to-head competition. If the goal differential among all teams tied is the same, the total of goals scored against each other is used. If the total of goals scored between the teams is equal, the goal differential between common opponents seeded higher will be used to determine ranking. This may require averaging the goal differential per game if the number of games between common opponents is unequal. Should teams be tied in won/loss record and they have not played each other, goal differentials against common opponents that are seeded above them are used. If no common opponents are seeded higher, the goal differential against the highest seeded common opponent is used.

Understanding the Game of Water Polo

General Information

1. Each team has six field players and a goalie.
2. Field players can only use one hand to touch the ball, goalies two.
3. The game consists of four, seven-minute quarters that stop on the whistle.
4. The object of the game is to score, by placing the ball completely in the goal. Players may move the ball by swimming or passing.
5. Teams may substitute after a goal is scored, during a time-out, or during the play from the ejection area.
6. Each goal is worth one point.
7. Each team receives one time-out per half and it does not carry over.
8. Players within two meters of the goal without the ball are offsides.

Fouls

When an infraction of the rules occurs, the referee will point in the direction of the team taking possession, while blowing his whistle. The ball is put back into play with an action called a free throw. This means the player gets three seconds of free time to throw the ball to another teammate or swim it up the pool. The player cannot shoot the ball unless outside the five-meter line. If the ball is not put into play within three seconds, the other team takes possession.

Types of Fouls

Fouls can be ordinary or major. Ordinary fouls are best understood as minor fouls. For example, a defender may reach over an opponent's back to get at the ball while facing away from the goal. The penalty for an ordinary foul is a free throw for the opposing team.

Major fouls are more severe and are penalized accordingly. For example, when a defender fouls an opponent too aggressively, or from behind when the opponent is facing the goal, the defender is ejected for 20 seconds (players may reenter if their team recovers the ball before the ejection time is up, or if the opposing team scores). When the foul occurs within five meters of the goal, the opposition shoots a penalty shot. Major fouls can also occur through disrespect to the referee or when a player interferes with an opponent's free throw. Players may only receive three major fouls before being eliminated from the game.

Note to Parents Regarding Social Media:

American Water Polo is excited about the opportunity to promote your sons and daughters during the tournament. We will be filming some of the game action, as well as conducting short player interviews to capture their excitement throughout the event. This footage will be posted to various social media outlets including our Facebook, Instagram, and Twitter accounts. Since many of your children are minors, we want to be sensitive to the fact that not all parents will be comfortable with an interview posted in this forum. While we will not be able to separate their game footage from the material we post, we will ask their permission with respect to any personal interviews.

Please instruct your child to decline any interviews and let your coach know as well, if that is your preference. In the event the message does not get to us and we post something against your wishes, simply inform us and we will remove it immediately.
